

## Glass with Colourful Mini Mosaic Tiles

v12932

A Mini Mosaic Pattern glued onto Glass using Clear Multi Glue Gel.

### *Comment faire*

**1.** Wash and dry the glass, making sure it is completely clean. Apply Clear Multi Glue Gel onto the glass and decorate only a small area at a time.

**2.** Place mosaic tiles until the glued surface is covered. Then more glue can be applied to a new area for more mosaic tile decoration. Let the newly decorated glass dry for at least 12 hours. TIP! You may pour the glue into a plastic bottle with a soft tip, making the process more manageable.
