

Glass with Colourful Mini Mosaic Tiles

v12932

A Mini Mosaic Pattern glued onto Glass using Clear Multi Glue Gel.

Comment faire

1. Wash and dry the glass, making sure it is completely clean. Apply Clear Multi Glue Gel onto the glass and decorate only a small area at a time.

2. Place mosaic tiles until the glued surface is covered. Then more glue can be applied to a new area for more mosaic tile decoration. Let the newly decorated glass dry for at least 12 hours. TIP! You may pour the glue into a plastic bottle with a soft tip, making the process more manageable.
