

Plaited Leather Bracelets decorated with Rocaïlle Seed Beads

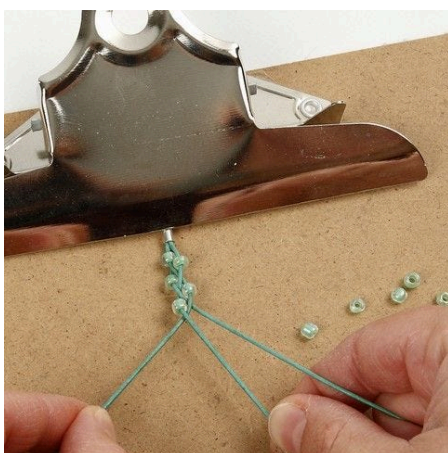

v12928

These bracelets are made from thin leather cords which are plaited and decorated with rocaïlle seed beads. They are finished with silver end caps and a silver clasp at one end.

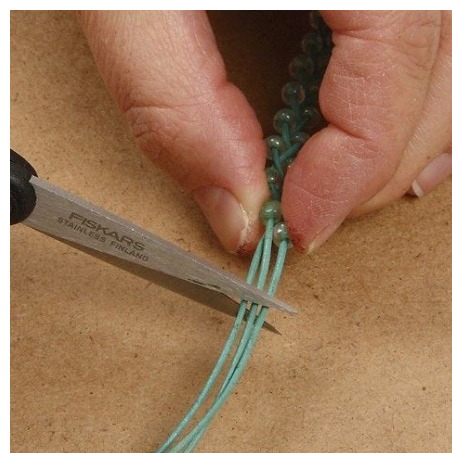

Comment faire

1. Cut three 30cm long pieces of leather cord. Gather them and glue them in place inside an end cap.

2. Plait the leather cords, threading a rocaïlle seed bead onto the cords as you go along.

3. When a desired length of the bracelet is reached, cut off the excess leather cords – approx. 1cm from the beads.

4. Gather the cord ends and glue them in place inside the end cap.

5. Attach a silver claw clasp with an oval jump ring onto the end cap in one end of the bracelet and an oval jump ring to the other end.
