

## Bracelets with Clay Beads and Wooden Beads

v12904

A mix of handmade clay beads, colourful wooden beads and metalised beads, threaded onto a piece of elastic beading cord.

### *Comment faire*

**1.** Thread all the beads onto a piece of 0.5mm elastic beading cord. OBS! The small clay beads (Indian beads) can advantageously be put onto the needle several at a time for simultaneous threading.

**2.** Finish by tying the ends of the beading cord with four or five tight knots. Alternatively just tie one knot; the number eight knot; find the instructions on our online jewellery school. Finally cut off the ends and hide the knot in nearest bead hole.
