

Silk Clay on Canvas Panels

v12882

White Silk Clay is sculpted and placed directly onto the canvas panel. It's then painted with Plus Color craft paint. Alternatively you may use coloured Silk Clay.

3D Pictures with Silk Clay White Silk Clay is sculpted and placed directly onto the canvas panel. It's then painted with Plus Color craft paint. Alternatively you may use coloured Silk Clay.

1. Sculpt figures in several parts from Silk Clay and attach the parts onto the canvas panel. Attach eyes to the figure's head.

4 Image-wise (spatial intelligence)
Have you realised that children's spatial intelligence is developed when working with modeling?

2. Paint the 3D figure and the background with your chosen Plus Color craft paint when the shape is completely dry.

3. Attach the finished canvas panel in the frame using a glue gun.
