

## A Greeting Card with Circle Holes

v12826

This greeting card with punched-out holes is made from card with different coloured and patterned design paper glued on.

### *Comment faire*

**1.** Cut a greeting card from card and fold it in the middle.

**2.** Cut out patterned design paper and attach it on the inside as well as onto the front of the greeting card.

**3.** Open the card and place the window punch on the front side of the card. Use the line on the plastic part as a guide.

**4.** Punch out a hole.
