

## A Papier-Mâché Stiletto with Rhinestones

v13067

This papier-mâché stiletto is painted with Precious Metal Color paint and decorated with glued-on rhinestones. Use it as a cheerful touch at home – eg:- as a holder for your mobile phone!

### *Comment faire*

**1.** Paint the stiletto with Precious Metal Color paint and let it dry.

**2.** Apply small blobs of Clear Multi Glue Gel where you want to attach the rhinestones and glue them in place. NB: not too many at a time – or else the glue will dry out too quickly.

**3.** Put a rhinestone onto each blob of glue. You may use a Jewel Picker for picking up the rhinestones easily and placing them accurately.

**An alternative holder for your mobile phone ...** -
