

A Bracelet made from a Bead Chain and Neon-Coloured Macramé Cords

v13044

This bracelet is made by plaiting a bead chain and two pieces of macramé cord. Bead cones are attached and a lobster claw clasp is used as the fastener.

Comment faire

1. Cut a piece of bead chain and two pieces of neon-coloured macramé cord, each measuring approx. 22cm. Assemble the three cords in one end and push them into a fold-over cord end and squeeze. NB! Make sure that the loop on the fold-over cord end is facing upwards.

2. Plait the chain and the cords.

3. Finish the plait by fitting a fold-over cord end around the three cord ends and squeeze it.
