

## A Trivet made from Glass Deco Stones in a Collage Frame

v13819

This trivet is made from a collage frame. The frame is painted with black Plus Color craft paint. Glass deco stones are glued onto the base using Hobby Glue. Black Mosaic filler is applied in the gaps between the stones using a spatula. Leave to dry.

### *Comment faire*

**1.** Paint the collage frame with black Plus Color craft paint. Apply a coat of Hobby Glue onto the base of the frame and place glass deco stones into the wet glue. When dry, apply black mosaic filler between the small stones using a spatula. Leave to dry for a couple of hours.

**2.** Wipe off the excess filler with a damp sponge. NB: it may be necessary to repeat this procedure a few times until the stones are completely shiny. Leave to dry between cleaning the stones.
