

A Calendar made from Paper Bags with Masking Tape Numbers

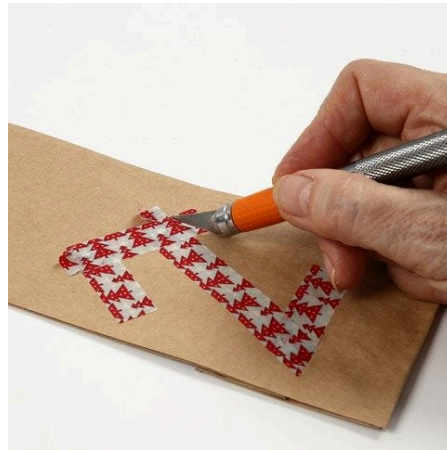

v13624

This Christmas calendar is made from unbleached paper bags with a folded base, hung on a cord with a peg. Each bag is decorated with a number for each day of the countdown to Christmas. The numbers are made from Masking Tape cut into small pieces.

Comment faire

1. Cut Masking Tape into small pieces and assemble them into a number and attach onto the paper bag.

2. You may want to trim the edges where the Masking Tape overlaps.

3. Attach the cord onto the vintage wooden clothes peg. Attach the peg (and the cord) onto the folded edge of the bag.
