

Charming little bags

v1452

The small purses are painted with diluted Textil Color and then decoupage with napkins. Finally dots are added with a Pearl Pen. A great idea for school children.

Comment faire

1 Paint the whole bag in a colour that matches the napkin you want to use. The colour must not be too dark, otherwise you will not be able to see the motif on the napkin

2 Remove the white part of the back of the napkin.

3 Cut out motifs from the napkin.

4 Put on a generous layer of decoupage lacquer onto the bag and put the napkin on top.

5 Then put a generous layer of decoupage lacquer on top of the napkin and brush it on thoroughly so there are no air pockets left.

6 Decorate the bag by bringing out the patterns of the napkin with a 3D liner.
