

Gel candle decorated with glass mosaic tiles

v10183

DIY candle with gel wax and glass mosaic tiles as decoration in the bottom of the tea light candle holder.

Comment faire

1 Attach a waxed candle wick to the bottom of a tea light candle holder with Dodz adhesive dots.

2 Use two flower sticks (or something similar) to keep the candle wick straight and pour the melted gel wax into the candle holder.

3 Add glass mosaic tiles one at a time when the gel has congealed a bit.
