

## A Nest made from Flower Sticks

v11372

This nest is simply made from small pieces of flower sticks, which are tied together with florist wire.

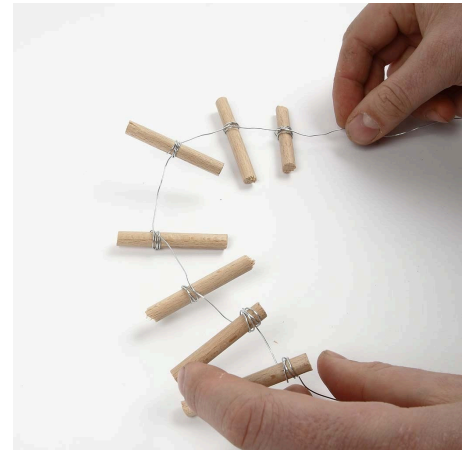

### *Comment faire*

**1** Cut flower sticks into approx. 50 small 5 cm pieces and three pieces each measuring 20 cm for the base.

**2** Tie the three 20 cm pieces together as shown for the base.

**3** Tie the small pieces together as shown.

**4** Tie the long florist wire with the tied-on wooden pieces onto the "base" as shown. Wrap around about 3-4 times to achieve a good nest effect.
