

## A Metal Wreath with a Polystyrene Ball

v12158

The metal wreath has been decorated with a painted polystyrene ball.

### *Comment faire*

**1.** Hang the metal wreath using a piece of striped cotton string. Insert a small piece of brass wire into the wreath and wind to make a small hanging device.

**2.** Paint and decorate the polystyrene ball using Plus Color. Let it dry.

**3.** Insert the small metal device into the dry, decorated polystyrene ball and secure it with a blob of glue if necessary.
