

## Silk Clay Christmas Figures on a coiled Spring

v14382

These Christmas figures are made from Silk Clay which is pushed onto a coiled spring with a stand. Small springs are used for arms and legs, pipe cleaners for antlers and hats. Everything – including funny plastic eyes – is pushed into the Silk Clay.

### *Comment faire*

**1** A reindeer: Roll a large ball from brown Silk Clay. This is the head and body. Also roll four (4) small balls for the hooves. Use red Silk Clay balls for the nose and the bows on the antlers, which are made from pipe cleaners.

**2** Push the head/body onto the large coiled spring. Push funny plastic eyes, the nose and the antlers, decorated with bows into the head.

**3** Attach a Silk Clay hoof to each of the four coils which are the reindeer's legs. Push the other end of the coil into the Silk Clay body. You may roll out a thin sausage from black Silk Clay, divide it in half and attach above each eye for eye brows.
