

Un aimant avec un hamburger en pâte Silk Clay

v14189

Cet hamburger est modelé dans de la pâte Silk Clay. Une fois sec, il est collé sur un aimant.

Comment faire

1 Shape the bun from Silk Clay in a golden wheat colour. The colour is achieved by mixing in the ratio shown using the colours: skin colour, orange and brown.

2 Shape a salad leaf, tomato and burger from Silk Clay in pure colours. Make a slice of cheese from yellow Silk Clay by rolling it flat and then cutting it with scissors. Assemble the burger and leave to dry.

3 Glue the magnet onto the underneath of the burger bun using Clear Multi Glue gel. Leave to dry.
