

## Une figurine en pâte Silk Clay sur un ressort en spirale avec un socle

v14190

Toutes ces figurines sont modelées avec de la pâte Silk Clay directement sur un ressort en spirale placé sur un socle.

### Comment faire

**1** Remove the protective layer from the foam pad at the end on which you wish to model the figure.

**2** Use your imagination to model a Silk Clay figure. Hide the disc of the coiled spring as best you can.

**3** Make a hole at the top with a pencil if you wish to use the figure as a pencil holder.

**4** Push plastic eyes into the figure and make additional Silk Clay details. Leave to dry.

**5** A TIP! Do not remove the protective layer on the foam pad at the opposite end until you have decided where to finally position it. For example on a table.
