

Un cadre en forme d'étoile recouvert de pâte Foam Clay

v14194

Une photo est attachée à ce cadre en forme d'étoile, lequel est recouvert avec de la pâte Foam Clay

Comment faire

1 Cut a picture or a photo (approx. 7.5 cm in diameter) and attach it to the frame from the front.

2 Push Foam Clay firmly and evenly distributed onto the frame. For a stripy look (like the frame shown here), roll long sausages in different colours and alternate them.

3 Also cover the outer edge of the frame with an overlap onto the back of the frame. Leave the finished decorated frame to dry.
