

## A Scream mask decorated with wiggly Eyes and Organza

v14276

This full face mask is painted with white and black Plus Color craft paint. When dry, wiggly eyes are glued on with Clear Multi Glue gel – and a cape from white organza is glued on.

### *Comment faire*

**1.** Apply two or three coats of white Plus Color craft paint to the mask.  
NB: Leave to dry between each application. Paint the mouth and the nostrils with black Plus Color craft paint and leave to dry.

**2.** Attach wiggly eyes (here we have used three bags) very closely on the mask using Clear Multi Glue gel.

**3.** The cape: cut a 50 cm piece of organza fabric from the roll. Make pleats at one end using a stapler. Glue the cape onto the bottom of the inside of the mask using Clear Multi Glue gel.
