

## Une boule de Noël avec découpage rouge et blanc

v14517

Ces boules dans un fil d'argent sont recouvertes de papier de découpage Vivi Gade (la série Copenhagen).

### *Comment faire*

**1** Cut a piece of decoupage paper measuring approx. 19.5 x 10 cm. Cut 3 cm long notches at the top and the bottom along the width of the paper. (NB: Notches are made for the paper to be attached evenly around the bauble.

**2** Cut away the tip of the points along the width that you want attached nearest the collar of the bauble.

**3** Apply decoupage lacquer with a brush around the bauble (like a waist band) and attach the paper.

**4** Apply decoupage lacquer to the rest of the bauble at the top. Use the brush to bend the paper points evenly close to the collar of the bauble.

**5** Repeat at the opposite end and leave the bauble to dry.

**6** Apply a coat of decoupage lacquer all over the bauble and leave it to dry.
