

A Glitter Paper Star decorated with a Rosette and a Snowflake

v14509

A star folded from glittery Vivi Gade Design paper with a silver thread for hanging. A rosette folded from white glossy paper and a small wooden snowflake are attached for further decoration in the middle of the star using Powertape.

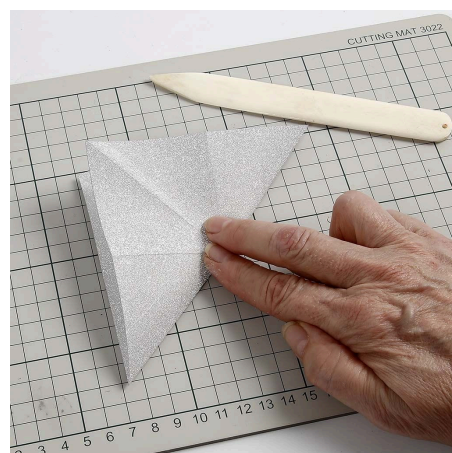

Comment faire

1 Cut a 12 x 12 cm square from glittery design paper.

2 Use a bone folder and fold in the middle in both directions. Unfold.

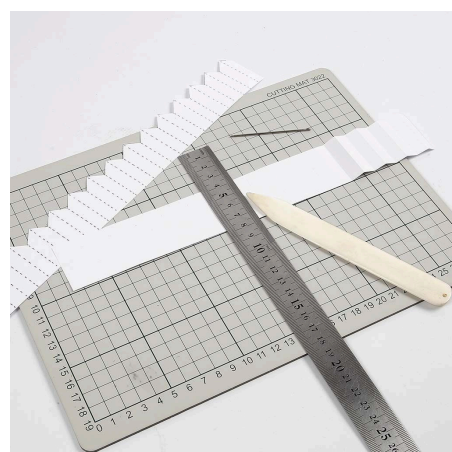

3 Fold diagonally twice. Unfold.

4 Make a 3 cm cut along the score line in all four directions using a craft knife.

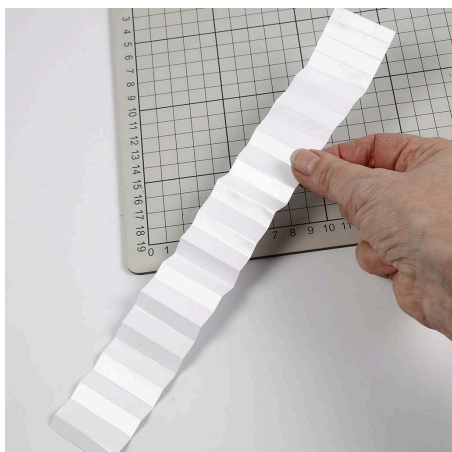

5 Make a fold from each cut towards the diagonal score line all the way around the shape. Attach all folds with Powertape.

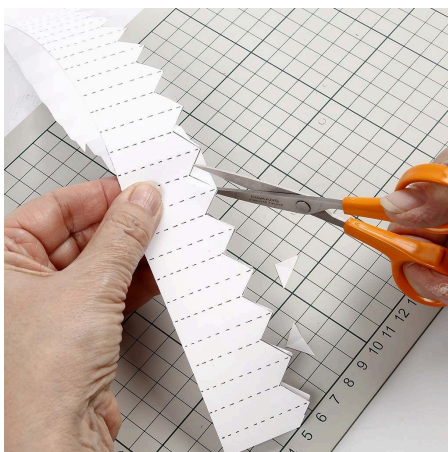

6 Rosette: Print and cut out the template which is available as a separate PDF file for this idea. Copy onto glossy design paper. Cut out the shape (don't do the jagged edge along one of the sides yet).

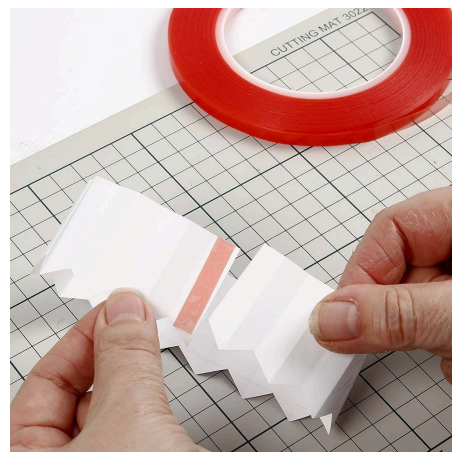

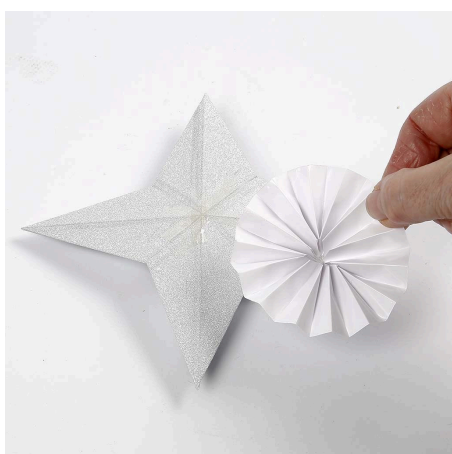

7 Fold in a concertina fashion from one end to the other. Use a bone folder.

8 Use the template as shown and cut the points.

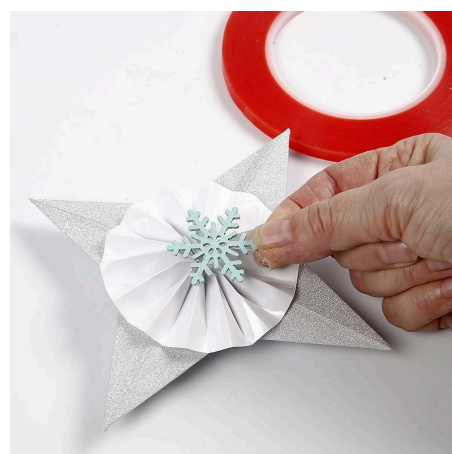

9 Attach Powertape at one end and assemble the paper to make a ring. Attach a piece of silver thread in one of the four points of the star.

10 Stand the ring upright and push the sides downwards and outwards, forming a rosette.

11 Attach small pieces of Powertape onto the middle of the star and attach the rosette.

12 Decorate the rosette with a wooden snow flake, attaching it with Powertape.
