

Un père Noël en polystyrène recouvert de pâte Foam Clay

v14528

Ce père Noël en polystyrène plein de caractère est recouvert de petites perles de pâte Foam Clay pressées fermement et uniformément.

Comment faire

1 Roll a small piece of Foam Clay into a ball. Press it firmly onto the figure and spread evenly with your fingers. Change colour according to your taste and continue following the illustrated procedure until the entire figure is covered. A TIP: Foam Clay sticks to all kinds of materials, for example, glass, wood and papier-mâché.
