

## Un sac cadeau plié dans du papier design Oslo

v13248

Un sac cadeau fait à partir de papier design de chez Vivi Gade (la série Oslo). Le sac design est tout d'abord découpé dans du papier. Ensuite, il est chiffonné et redressé à nouveau pour ajouter un aspect rustique au papier. Le sac est ensuite assemblé avec des points autocollants E-Z Runner et fixé avec un bouton et un morceau de chanvre naturel.

### Comment faire

**1.** Print out the template which is available as a separate PDF file for this idea. Cut it out and copy it onto design paper. NB: Cut away the wedges as shown in the picture.

**2.** Use a pencil for drawing the dotted lines along the edge of the design paper. Now score the lines with a bone folder.

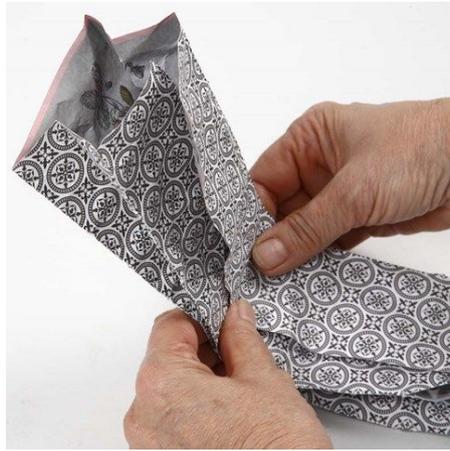

**3.** Fold the bag along the score lines.

**4.** Gently scrunch up the paper to make it soft and to give it a rustic look. NB: You may scrunch up the paper before cutting, scoring and folding it.

**5.** Fold on either side of the score lines that make the sides of the bag.

**6.** Apply glue, i.e. E-Z Dots, along the edge.

**7.** Fold the glued edge in towards the bag, so that the front and the back are the same size on either side of the fold.

**8.** Glue the base together. One flap at the time.

**9.** Cut the edges along the top of the gift bag using pinking shears.

**10.** Fold down the top of the bag and make two horizontal holes through all the layers of paper using a Screw Punch.
