

A Christmas Piglet with a red Bow

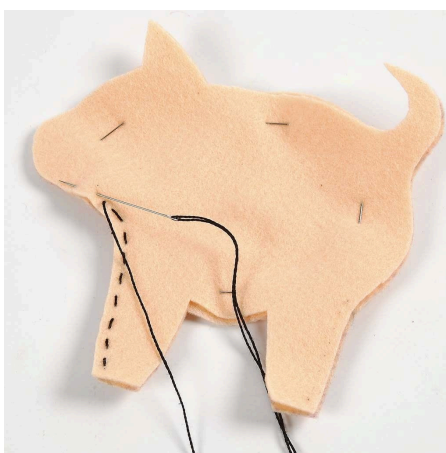

v14385

This piglet and the red bow are made from craft felt using a template and filled with carded wool.

Comment faire

1 Copy the piglet and the bow (two of each) from the template onto craft felt using a pen with disappearing ink which disappears after 24 hours.

2 Sew the two piglet parts together using a needle and mercerised cotton yarn. Leave an opening for the stuffing.

3 Fill the piglet with carded wool and sew the hole together.

4 Glue the bow onto the piglet; one on each side, using Clear Multi Glue gel. Leave to dry.

5 Cut two round eyeballs from white felt and two smaller ones for pupils from black felt. Glue the pieces together in pairs on either side of the piglet's head.
