

Un Ange fait en feutre artisanal

v14391

Cet ange a été fait avec un modèle flexible. Ce modèle peut servir pour faire beaucoup de différentes figures de Noël. Ici, nous avons utilisé du feutre artisanal pour la figure, qui a été collée, puis cousue et remplie de laine cardée.

Comment faire

1 Print and cut out the flexible template which is available as a separate PDF file for this idea.

2 Copy the templates onto craft felt in your chosen colours – and cut out. (Cut out 2 x the body).

3 Glue wings and feet onto one body (the back) as shown here. Place the other body (the front) on top, and glue on hands and the head with a staggered halo.

4 Sew together the two parts with glued-on body parts and decorations, using a needle and mercerised cotton yarn. NB: Leave a hole at the bottom for the stuffing.

5 Fill the angel with carded wool and sew the hole together.

6 Draw eyes and the mouth with a black textile marker.
