

Figurines magnétiques de nettoyeurs de tuyaux avec Silk Clay et Foam Clay

v14755

Les trois aimants sont cachés par des figures d'enfants. Chaque enfant est fait d'un squelette de cure-pipe avec des aimants pour les mains et une boule de polystyrène pour la tête. Tout est recouvert de Silk Clay et de Foam Clay.

Comment faire

1 Push two pipe cleaners into a polystyrene UFO as illustrated.

2 Twist a pipe cleaner onto the two pipe cleaners just underneath the head for the arms.

3 Cover the head with Silk Clay. Make Silk Clay ears, eyes, mouth and hair and push these parts onto the head as illustrated.

4 Attach a small piece of wood with a magnet at the end of both pipe cleaner arms for the hands.

5 Cover both wooden pieces with Silk Clay. NB: Don't cover the magnet.

6 Cover the rest of the figure with Foam Clay according to your imagination. We have decorated this figure with a top with dots, a skirt, tights and small boots.
