

Boucles d'oreilles avec longs pendentifs

v14713

Ces boucles d'oreilles métalliques avec chaînes et têtes d'épingles sont plus longues avec du fil de fer décoré de perles rocailles, etc.

Comment faire

1 Cut at piece of beading wire to your desired length and attach a crimp bead. Thread the wire through the loop of a pendant and then through the crimp bead. Tighten and squeeze the crimp bead flat with pliers.

2 Thread rocaille seed beads onto the wire. (In this example we have used approx. 20 beads).

3 Finish with a crimp bead by threading the wire through the loop at the bottom of the chain of the stud earring and then through the crimp bead as described in step 1. Tighten and squeeze the crimp bead flat with pliers.
