

Un parasol et une table de pique-nique avec deux bancs faits avec des bâtons de friskos

v14651

L'ombre du parasol est faite avec du papier cartonné à motifs. La table de pique-nique et les bancs sont faits avec des bâtons de friskos collés ensemble.

Comment faire

1 Picnic table from ice lolly sticks:
Cut 3 lolly sticks measuring 6 cm and
2 lolly sticks measuring 3.3 cm to go
across. For the table legs: cut 4 lolly
sticks at an angle (see photo)
measuring 3 cm and 2 lolly sticks
measuring 6.5 cm. For the benches:
cut 2 lolly sticks each measuring 6
cm.

2 Glue all the ice lolly sticks
together (except the two benches) as
illustrated and leave to dry.

3 Cut the horizontal lolly sticks on
the table legs at an angle and glue
the bench lolly sticks onto these.
Leave to dry.

4 Parasol: Cut an ice lolly stick measuring 8 cm. Cut a circle from patterned card with a diameter of 9 cm. Fold the card circle to make a total of 8 folds by folding four times from one side and then four times from the other side, creating a total of 16 scored lines. Arrange these scored lines into the shape of a pleated shade. Glue a bead onto the top of the shade and glue an ice lolly stick onto the shade from the inside. Leave to dry.
