

## Bracelets tressés avec des mots et des symboles

v14599

Ces bracelets sont tressés avec des cordons de coton ciré décorés de perles de bois. L'une avec des perles de lettre faisant un mot et l'autre avec une perle de sport en forme de ballon de football.

### Comment faire

**1** A TIP: It's easier to thread the beads onto the cotton cord by applying glue to the end of the cord and leaving it to dry.

**2** Thread letter beads and wooden beads alternating onto the middle of the cotton cord.

**3** Attach one end of the cotton cord onto a clip board and braid at each end. (See idea No. 12499 on our 'Jewellery School for help with the technique).

**4** Finish: Unlike the instructions in 12499, the cord ends are not melted as this is not possible when using cotton cord. Instead, secure and hide the ends using a needle.

**5** Tie another knot at each end of the cord a couple of cm from the fastening. Thread a bead on at each end and tie another knot. Trim the cord.
