

A T-Shirt decorated with a Sports Design on Transfer Paper

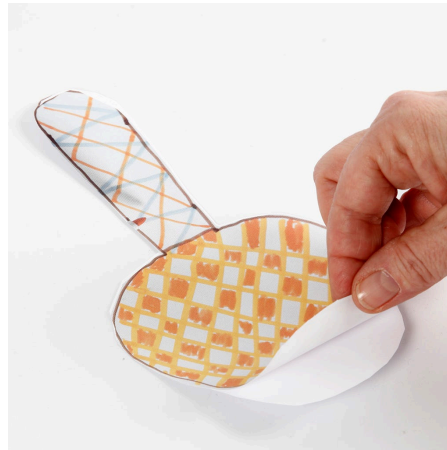

v15039

This boy has illustrated his favourite sport (tennis) on transfer paper using textile markers. The design is cut out and ironed onto a T-shirt.

Comment faire

1 Draw on the glossy side of the transfer paper using textile markers.

2 Cut out and separate the transfer paper from the backing paper.

3 Place the design on top of the fabric with a piece of baking paper on top. Now iron the design, fixing it onto the fabric.

Another variant This technique is also ideal for coloured textiles, for example, black.
