

Shrink Plastic Keyring Fobs with a Sport Theme

v14951

These transparent shrink plastic sheets are decorated with colouring pencils using inspirational templates. The designs are then shrunk to 40% of their original size and fitted onto a keyring.

Comment faire

1 Print out the inspirational template, place it underneath the shrink plastic sheet and draw/colour in on the matt side using colouring pencils.

2 Cut out the designs and make a hole with revolving punch pliers. Remember that the hole shrinks as well.

3 Place the figure on a baking sheet covered with baking paper. Put in a household oven at 170 °C. After a few minutes the figure will start to shrink and curl up and then it straightens out again and can be taken out of the oven. Attach the figure to the keyring using a round jump ring. Squeeze the round jump ring with flat nose pliers to close it.
