

Foam Rubber Easter hanging Decorations

v14938

These figures are cut out using a template with a "hole in the tummy" which is filled with a yarn pom-pom made on a pom-pom maker. The template can be printed as a PDF file below.

Comment faire

1 Print out the template and cut out your chosen figures from foam rubber or thick card.

2 Make a pom-pom by winding the yarn several times around each part of the two-part pom-pom maker.

3 Close the pom-pom maker and cut open the yarn along the groove between the two discs all the way around.

4 Tie a piece of yarn in the groove of the pom-pom tool, tighten and finish with a double knot.

5 Remove the pom-pom maker.

6 Pull the pom-pom through the hole in the figure's tummy and attach a string for hanging at the top.

Another variant Another variant with a card body and googly eyes.
