

## A Flower Wreath from Silk Clay and Silk Clay Creamy

v14920

A wooden wall decoration painted white and decorated with Silk Clay flowers and Silk Clay Creamy details.

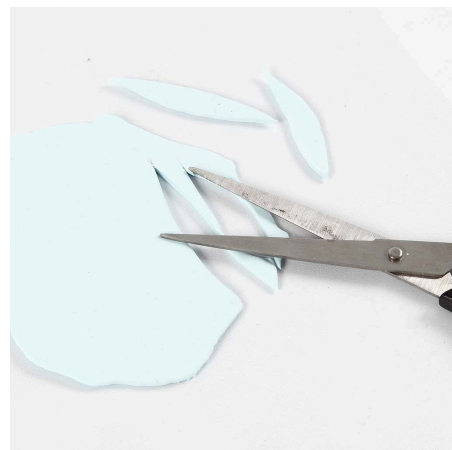

### *Comment faire*

**1** Paint the wooden wall decoration with white craft paint. Apply two coats. Remember to sand between each application. When the paint is dry, draw a circle with a 13 cm diameter using compasses.

**2** Roll out Silk Clay thinly.

**3** Cut out and shape leaves.

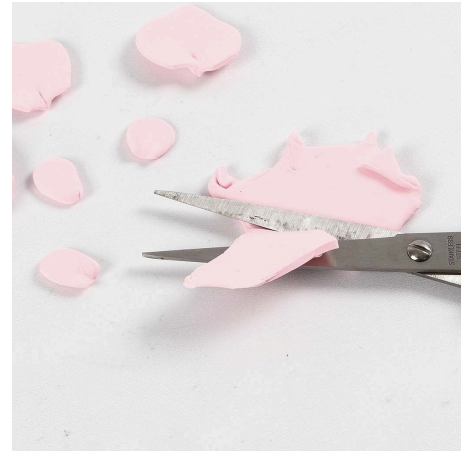

**4** Roll out thin stalks using your fingers.

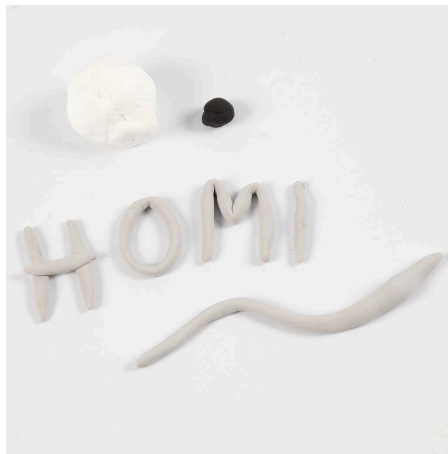

**5** Silk Clay is mixable. We have mixed a large amount of white with a bit of pink to make the colour rose. Mix white with a bit of black to make light grey.

**6** Roll out the Silk Clay. Cut, press and shape the Silk Clay into petals. Put them on the wreath one by one.

**7** Various nozzles are available for Silk Clay Creamy. We have used a star-shaped nozzle for the flower head and the flower buds. We have also used a nozzle with a round hole.

**8** Mix a large amount of white with a small amount of black to make light grey. Roll and shape letters to write text.
