

Une petite maison féérique dans une boîte de rangement

v14837

Cette maison féérique pour les petites fées est construite à l'intérieur d'une boîte de rangement à la forme d'une maison. Le toit et la clôture sont faits en bâtons de glace et de petits disques en bois rustiques forment un chemin vers la petite porte magique, laquelle est entourée de petits disques en bois rustiques. Des fleurs, des oiseaux et des outils de jardin sont ajoutés à la décoration pour créer une ambiance agréable.

Comment faire

1 Cut ice lolly sticks to a suitable length for the timber frame, the picket fence and the gate (here the picket fence is approx. 6 cm high). The five lolly sticks used for the gate are higher than the fence. Use an ordinary pair of scissors or a special mitre cutter to cut the lolly sticks to size.

2 Paint the storage box, door and lolly sticks with craft paint.

3 Apply the paint onto the timber frame and the door using a sponge for a natural wooden look.

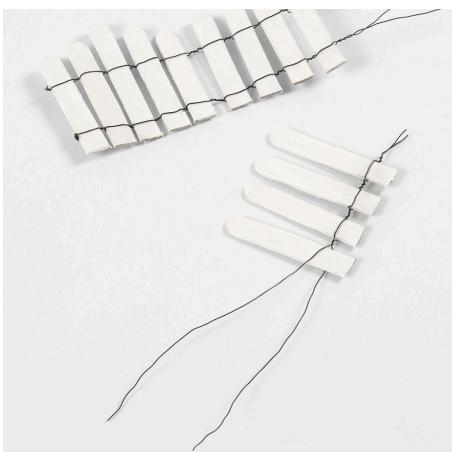

4 Make the roof by cutting lolly sticks in half. Glue on the half-sized lolly sticks side by side using a glue gun. As illustrated in the photo, cut two lolly sticks to a length which fits the distance from the edge of the slope to the top. Glue both of these lolly sticks on each side for the gable, creating a lovely finish.

5 Glue lolly sticks onto the roof as a support each time you make a new vertical row of lolly sticks. That way one end of the lolly stick is resting on the glued-on lolly stick (see the photo). Repeat steps 4 and 5 for each row on both sides of the roof.

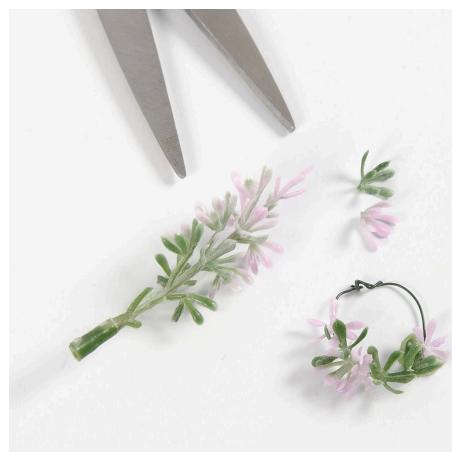

6 Glue on the door, the timber frame and the wooden discs for the path using a glue gun.

7 Make a picket fence by twisting four pieces of floral wire (two at the top and two at the bottom) around each lolly stick.

8 Glue the picket fence onto the sides and along the bottom edge of the storage box using a glue gun.

9 Make a wreath for the door by wrapping a piece of floral wire around two fingers, making a ring. Trim the ends and glue cut-off flowers onto the floral wire ring with a glue gun, thus making a wreath.

10 Write the name of the house onto an ice lolly stick using a white permanent marker.

11 Glue the sign onto each side of the roof gable at the front.

12 Decorate further with fairy lights, pots, flowers, birds and gardening tools etc.
