

## A Papier-mâché Elephant covered with Pearl Clay and Googly Eyes

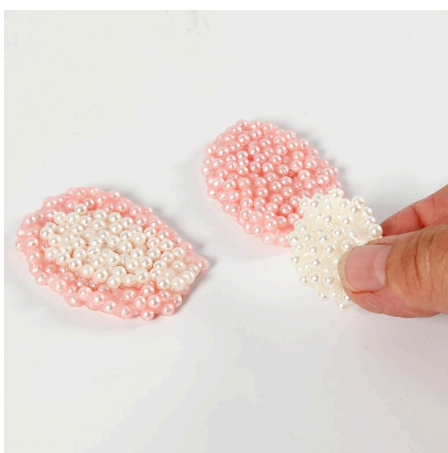

v15154

This papier-mâché elephant is covered with Pearl Clay and googly eyes. The ears are made separately and then attached.

### *Comment faire*

**1** Divide the supplied tub of modelling gel into three equal size portions and mix each portion with a tub of beads by pushing the modelling gel (glue) into the beads by hand.

**2** Model two pink ears with white beads inside as follows: Place a spoon underneath to shape the ears and to make them curve slightly. Leave to dry until the modelling gel (glue) has dried completely.

**3** Now cover the entire elephant with Pearl Clay (except the ears).

**4** Attach the loose ears with the modelling gel (glue). Fill in the gaps with beads.

**5** Push in the googly eyes.
