

Silk Clay Magnet Figures

v15160

Hang the entire family on the fridge door as magnets. The Silk Clay figure heads are modelled around a small piece of wood with a magnet (glue is not necessary) and the bodies are cut out with scissors and decorated further.

Comment faire

1 Model a head around a small piece of wood with a magnet. Do not cover the actual magnet.

2 Roll out or flatten the Silk Clay by hand and cut out the body parts with a pair of scissors. Assemble all the parts immediately.

3 Add details to the figures. You may make additional figures, for example, Dad's favourite cat which is modelled separately. Leave to dry and attach the cat with a blob of Silk Clay.
