

An Angel with Foam Clay Glitter and Silk Clay

v15157

The angel's body is a terracotta bell which is covered with Foam Clay glitter and decorated with rhinestones. A polystyrene ball is covered with Silk Clay. Eyes and a nose, etc. are attached. The wings and the halo are made from pipe cleaners.

Comment faire

1 Cover the terracotta bell with Foam Clay glitter.

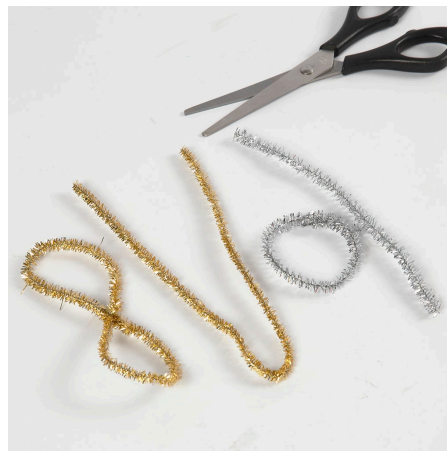

2 Add rhinestones by rolling small Foam Clay balls, pressing rhinestones into the ball and then pressing the ball onto the bell.

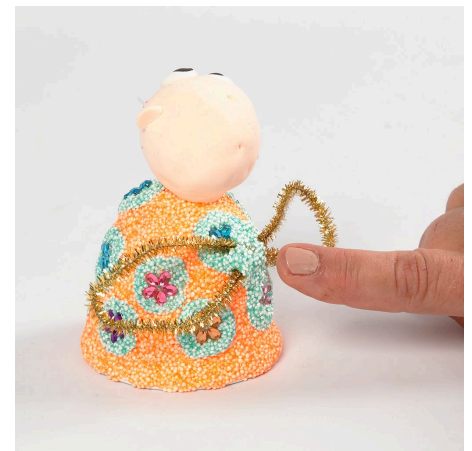

3 The head: cover a polystyrene ball with Silk Clay. Attach Silk Clay ears, nose, eyes and mouth.

4 Attach the head onto the body with a blob of Silk Clay (or Foam Clay). Leave to dry.

5 Create wings from a pipe cleaner and a halo from a half piece of pipe cleaner.

6 Attach the wings onto the back with a blob of Foam Clay.

7 Glue pieces of flax twine for hair and the halo onto the head with a glue gun (or use a blob of Foam Clay instead of glue).
