

## Polar Animals from Foam Clay

v15155

These small animals are made from a polystyrene cone body covered with Foam Clay and decorated further with pipe cleaners, eyes, noses, skis and ski poles.

### *Comment faire*

**1** Cover the polystyrene cone bodies with Foam Clay modelling clay.

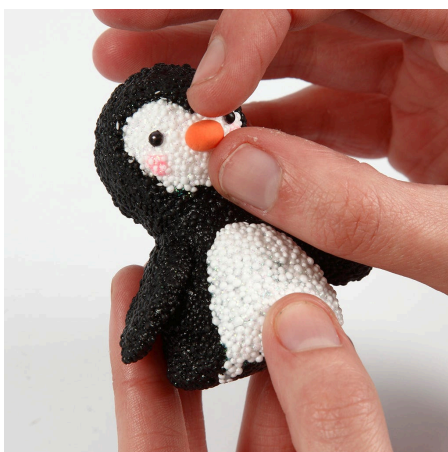

**2** Attach arms, tails, ears etc. depending on the animal you make.

**3** Penguin: Cover the head with white Foam Clay first and then add black Foam Clay as shown.

**4** Add white Foam Clay on the front of the penguin for a white tummy.

**5** Make the penguin's beak from orange Silk Clay.

**6** Make antlers from a piece of brown pipe cleaner.

**7** Push the antler onto the head without using glue. Use red Foam Clay for the nose and push in black plastic studs for the eyes.

**8** Scarf: Twist two pieces of pipe cleaner.

**9** Twist and tie the scarf around the animal's neck and trim.

**10** Make snow balls from white Foam Clay.

**11** Attach the skis and ski poles (made from small ice lolly sticks) whilst the Foam Clay is still damp without using glue.

**12** You may also make a small snowman from balls.
