A Neon Sign with an LED Light Cord

v15120

This wall decoration made from wooden slats is painted with black Plus Color craft paint and decorated with an LED light cord which you canform as you choose. The LED light cord can shine continuously or flash slowly or quickly.
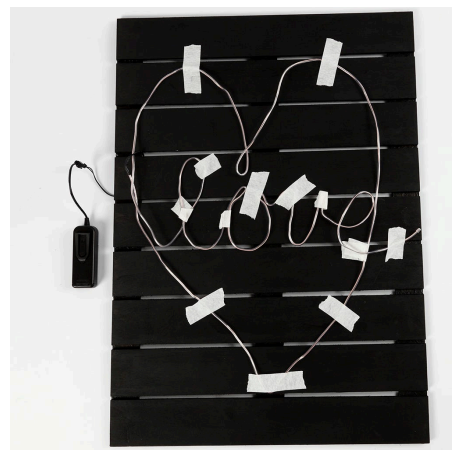

Comment faire

**1** Paint the wooden wall decoration with black Plus Color craft paint.

2 Feed one end of the cord through the slats of the wall decoration onto the front and pull it through to the back.

3 Bend the LED light cord to make text and a shape. (You may use a template). Attach the LED light cord onto the wooden wall decoration with masking tape as you go along. Experiment to make the length of the cord to fit.

creativ company

4 Glue the cord onto the wooden wall decoration.
