

A wooden Stool decorated with Ethnic Patterns using a Stencil

v15123

This wooden stool is painted with craft paint and then decorated with ethnic stencilled designs.

Comment faire

1 Varnish the seat.

2 Here is a tip to prevent the stencil from sliding: spray the back of the stencil with spray adhesive. Spray a thin layer from approx 25 cm distance. Leave to dry until the glue is tacky; i.e. the glue is sticky, but it no longer sticks to the fingers when you touch it.

3 Place the stencil on the stool and dab with Plus Color craft paint. Remove the stencil whilst the paint is still wet.

4 When dry, continue as described previously. Turn the stencil and line up the edges.

5 When dry, varnish the seat once again and the legs.

6 Make a stencilled design on the varnished seat of the stool using black Plus Color craft paint.

7 Paint the legs with black craft paint. Don't varnish afterwards but leave the legs matt black.
