

A Hand Bag with a Seashell Design decorated with Textile Markers

v15131

This small bag has a pre-printed seashell design which is coloured in with textile markers. The bag is then decorated with sequins which are sewn on with needle and thread.

Comment faire

1 Colour in the seashell with textile markers. Here we have made a lovely transition effect by first colouring in with pink.

2 Now blend in with a purple textile marker to make a lovely transition between the colours.

3 Fix the bag with an iron so that the bag is washable.

4 Sew on sequins using a needle and thread.
