# Gauze Bandage Ghosts painted with luminescent Paint

v15064

These ghosts for interior decoration are made from gauze bandage draped over a polystyrene ball and painted with luminescent paint.

Comment faire

1 Attach a polystyrene ball to one end of a flower stick and push the other end into a block of oasis floral foam (or a pot with sand or similar). Cut gauze bandage into suitable strips, moisten in water and drape over the ball in layers.

2 Paint with Glow-in-the-Dark luminescent paint when dry.

3 Glue on eyes with a glue gun.
