

A Gauze Bandage Bowl with Glitter, decorated with Glass Baubles, Cones etc.

v15107

This large bowl is made from gauze bandage modelled over a balloon. The inside of the bowl is sprinkled with glitter. Finally it is decorated with LED lights, glass baubles, pine cones etc.

Comment faire

1 Cut the gauze bandage into suitable pieces.

2 Blow up a balloon to the size you want your bowl to be. Dip the gauze bandage in water and drape it over the balloon. Leave to dry.

3 Make three gauze bandage balls and attach these onto the outside base of the bowl and cover with a piece of gauze bandage.

4 Apply glue to the inside of the bowl with a brush.

5 Sprinkle glitter over the wet glue.

6 Decorate the bowl by placing, for example, glass baubles, cones and LED lights inside the bowl.
