

## A Christmas Decoration with a Candle, miniature Polar Bears and Christmas Trees

v15102

This Christmas decoration with candles is made on a ceramic plate decorated with Foam Clay. The four numbers here (one for each Sunday in Advent) are written on the candle with a liquid wax pen. The candle is pushed into the Foam Clay so that it stands firmly. Miniature Christmas trees and miniature polar bears are added for decoration.

### *Comment faire*

**1** Apply glue to the Christmas trees using a brush and sprinkle artificial snow onto the wet glue.

**2** Write the numbers on the candle with a liquid wax pen.

**3** Roll Foam Clay onto a ceramic plate and push the candle into the Foam Clay. Shape Foam Clay to different heights and roll small (snow) balls to make an uneven snow landscape. Model a small igloo from Foam Clay. Make sure that the candle is secure.

**4** Push Christmas trees into the Foam Clay and decorate with small figures. Sprinkle artificial snow onto the white Foam Clay.
