

## Mugs with colour-changing Stickers

v15085

Stickers that change colour when they are exposed to heat (for example hot drinks) are attached directly onto mugs.

### *Comment faire*

**1** Wash and dry the mug well.

**2** Rub the backing paper of the sticker before removing it from the foil.

**3** Remove the foil from the paper.

**4** Place the sticker onto the mug. Rub well from the middle and outwards to remove air bubbles. Important: the distance to the rim of the mug **MUST** be min. 2 cm as the stickers are not approved for food use.

**5** Leave the mug for two hours after which it is ready for use.

**6** The mugs can withstand mild washing by hand. They are not dishwasher safe.
