

A Christmas Bauble with Faux Leather Paper made to look like a Cone

v15013

These cones are made from faux leather paper circles punched out with a paper punch. The circles are glued onto a polystyrene ball using a glue gun. A metal hanger with a collar is used for hanging to make the cones look like Christmas baubles. We have used rose gold, gold, natural and white faux leather paper in these examples.

Comment faire

1 Punch out approx. 80 circles with a paper punch. For this bauble we have used a 25 mm paper punch. Glue the first faux leather paper circle onto the top of the bauble using a glue gun.

2 Now glue four circles in a staggered fashion onto the polystyrene ball.

3 Glue the circles all the way around the bauble in a staggered fashion.

4 Push a hole in one of the faux leather paper circles for the metal hanger.

5 Make a hole in the bauble for the metal hanger.

6 Push the metal hanger into the bauble and glue in place.

7 Attach a leather cord for hanging.
