

Tissue Paper Ghosts with Googly Eyes

v15063

Each ghost is made from tissue paper and googly eyes using materials from the Halloween kit. They are then hung from a piece of cotton cord.

Comment faire

1 Cut a 22x22 cm piece of tissue paper for each ghost.

2 Loosely scrunch up a head from cut-offs measuring approx. 2.5 cm, making sure the head is not too heavy to prevent it from tipping over when hanging.

3 Stuff the head inside a large piece of tissue paper, wrap around and tie it tightly with a long piece of cotton cord.

4 Attach eyes with Clear Multi Glue Gel. Make as many ghosts as you like and tie them equal distances apart onto the cord.
