

A Flower Garland made from Card and Vellum Paper

v15346

Make this beautiful flower garland with punched-out card and vellum paper flowers and twigs. The flowers are folded and threaded onto cotton cord. The twigs are glued onto the cord.

Comment faire

1 Punch out flowers and twigs from card and vellum paper.

2 You will need approx. 58 flowers and 20 twigs for a 110 cm long garland.

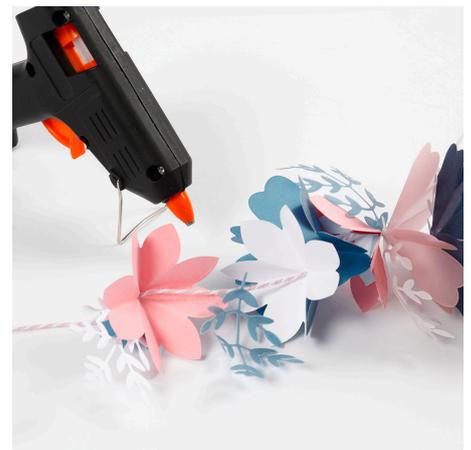

3 Fold the flowers in half.

4 Fold all the flowers as illustrated here.

5 Cut a 170 cm piece of cotton cord and thread the flowers onto the cord spaced equally with a small gap in between.

6 Apply a small blob of glue onto the cord on either side of the flowers, to prevent them from sliding on the cord. Glue on the twigs randomly.
