Place Cards with 3D Effect punched-out Card Flowers

v15379

Make your own place cards decorated with punched-out card flowers with a 3D effect.

Comment faire

1 Punch out flowers from card in your chosen colours.

2 Glue the flowers on in layers. When the glue is dry, use a small object for lifting the petals, adding a 3D effect to the flowers. Write a name on the place card with a marker (we have used a Plus Color marker).
