

Wooden Hearts for hanging, decorated with Fabric Decoupage

v15328

These wooden hearts are decorated with fabric decoupage and a piece of string for hanging.

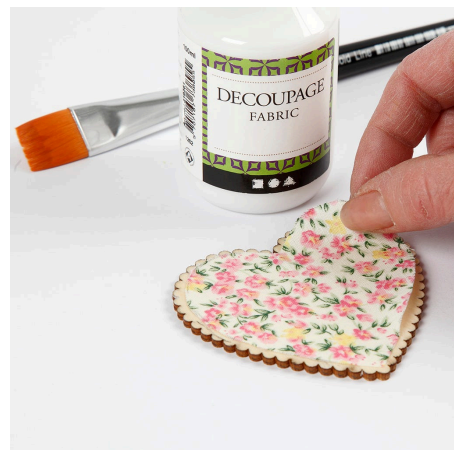

Comment faire

1 Copy the outline of the hearts onto fabric using the template. You may use a pen with disappearing ink; the ink disappears after a couple of days. Cut out the hearts.

2 Apply a coat of decoupage lacquer for fabric onto the wooden heart.

3 Place the fabric onto the heart. Apply another coat of decoupage lacquer for fabric on top of the fabric.

4 Make a hole for the string using a hole punch.

5 Make a small heart the same way as you made the large heart.

6 Attach the small heart onto the large heart with decoupage lacquer for fabric.

7 Attach a string for hanging.
